

TABLE OF FIGURES

Figure No.	Description	Page No.
Figure 1.1	Exxaro: Location of Material Properties	39
Figure 1.2	Exxaro: Location of Exploration Properties	40
Figure 1.3	Exxaro: Corporate Structure	41
Figure 2.1	Sishen Mine: Map and Lease Area	77
Figure 2.2	Sishen South Project: Map and Lease Area	78
Figure 2.3	Thabazimbi Mine: Map and Lease Area	79
Figure 2.4	Grootegeluk Mine: Map and Lease Area	80
Figure 2.5	Leeuwpan Mine: Map and Lease Area	81
Figure 2.6	Tshikondeni Mine: Map and Lease Area	82
Figure 2.7	Arnot Colliery: Map and Lease Area	83
Figure 2.8	Matla Colliery: Map and Lease Area	84
Figure 2.9	New Clydesdale Colliery: Map and Lease Area	85
Figure 2.10	North Block Complex: Map and Lease Area	86
Figure 2.11	Mafube JV Phase II Project: Map and Lease Area	87
Figure 2.12	Ingcambu Project: Map and Lease Area	88
Figure 2.13	Inyanda Project: Map and Lease Area	89
Figure 2.14	Belfast Project: Map and Lease Area	90
Figure 2.15	Bowen Basin – Locality Plan	91
Figure 2.16	Ticor SA: Map and Lease Area	92
Figure 2.17	Tiwest JV: Map and Lease Area	93
Figure 2.18	Rosh Pinah: Map and Lease Area	94
Figure 2.19	Zincor: Location of Assets	95
Figure 2.20	Chifeng: Location of Assets	96
Figure 2.21	Glen Douglas: Map and Lease Area	97
Figure 2.22	Kumba FerroAlloys: Location of Assets	98
Figure 3.1	Sishen Mine and Sishen South Project – Regional Geology	117
Figure 3.2	Sishen Mine – East-West Section through the Iron Ore Deposit	118
Figure 3.3	Sishen South Project – Section through the South Pit	119
Figure 3.4	Thabazimbi Mine – Regional Geology	120
Figure 3.5	Thabazimbi Mine – Section through the Orebody in the Northern Range	121
Figure 3.6	Exxaro – Coal Fields in which operations are carried out	122
Figure 3.7	Grootegeluk Mine – Generalised Geological Map and Exploration Prospects	123
Figure 3.8	Grootegeluk Mine – Typical Resource Classification	124
Figure 3.9	Grootegeluk Mine – Borehole Data and Cross Section	125
Figure 3.10	Grootegeluk Mine – Schematic Stratigraphic Column	126
Figure 3.11	Leeuwpan Mine – Typical Resource Classification	127
Figure 3.12	Leeuwpan Mine – Borehole Location Plan	128
Figure 3.13	Leeuwpan Mine – Stratigraphic Column	129
Figure 3.14	Tshikondeni Mine – Geological Structure and North-South Profile	130
Figure 3.15	Tshikondeni Mine – North-South Profile	131
Figure 3.16	Tshikondeni Mine – Stratigraphic Column	132
Figure 3.17	Arnot Colliery – S2L Heat Value	133
Figure 3.18	Arnot Colliery – S2L Seam Thickness	134
Figure 3.19	Arnot Colliery – Borehole Locations	135
Figure 3.20	Matla Colliery – Distribution of Mineable No. 2 Seam Resources > 1.8m thick	136
Figure 3.21	Matla Colliery – Distribution of Mineable No. 2 Seam Resources > 2.5m thick	137
Figure 3.22	Matla Colliery – Distribution of Mineable No. 4 Seam Resources > 2.5m thick	138
Figure 3.23	New Clydesdale Colliery – Borehole Distribution Plan	139
Figure 3.24	New Clydesdale Colliery – No. 4 Lower Seam Thickness Contours	140
Figure 3.25	New Clydesdale Colliery – No. 4 Lower Seam Overburden Thickness	141
Figure 3.26	New Clydesdale Colliery – Typical Stratigraphic Column	142

Figure No.	Description	Page No.
Figure 3.27	North Block Complex – Borehole Distribution Plan	143
Figure 3.28	North Block Complex – No. 2 Seam Overburden Thickness Contours	144
Figure 3.29	North Block Complex – No. 2 Seam Thickness Contours	145
Figure 3.30	North Block Complex – Borehole Distribution Plan	146
Figure 3.31	North Block Complex – No. 2 Seam Overburden Thickness Contours	147
Figure 3.32	North Block Complex – No. 2 Seam Overburden Thickness Contours	148
Figure 3.33	Strathrae Colliery – Typical Stratigraphic Column	149
Figure 3.34	Inyanda Project – Borehole Locality Plan	150
Figure 3.35	Inyanda Project – Stratigraphic Column	151
Figure 3.36	Mafube JV Phase II Project – Typical Stratigraphic Column	152
Figure 3.37	Belfast Project – Borehole Locality Plan	153
Figure 3.38	Belfast Project – Stratigraphic Column	154
Figure 3.39	Incgambu Project – Borehole Locality Plan	155
Figure 3.40	Moranbah South Project – Stratigraphic Column	156
Figure 3.41	Hillendale Mine – Geological Map	157
Figure 3.42	Fairbreeze Project – Geological Map	158
Figure 3.43	Rosh Pinah – Schematic Representation of Typical Geological Plan	159
Figure 3.44	Rosh Pinah – West-East Geological Section Looking North	160
Figure 3.45	Glen Douglas – Geological Plan	161
Figure 3.46	Glen Douglas – Generalised Geological Section	162
Figure 6.1	Sishen Mine – Main Flowsheet	247
Figure 6.2	SEP – Main Flowsheet	248
Figure 6.3	Sishen South Project – Sishen South Plant	249
Figure 6.4	Thabazimbi Mine – Process Plant Flowsheet	250
Figure 6.5	Grootegeluk Mine – Schematic Flowsheet of the Operation	251
Figure 6.6	Grootegeluk Mine – GG1 Coal Preparation Plant	252
Figure 6.7	Grootegeluk Mine – GG2 Coal Preparation Plant	253
Figure 6.8	Grootegeluk Mine – GG3 Coal Preparation Plant	254
Figure 6.9	Grootegeluk Mine – GG4 Coal Preparation Plant	255
Figure 6.10	Grootegeluk Mine – GG5 Coal Preparation Plant	256
Figure 6.11	Leeuwpan Mine – Schematic Flowsheet of the Coal Plant	257
Figure 6.12	Leeuwpan Mine – Coal Washing Plant	258
Figure 6.13	Leeuwpan Mine – Jig Flowsheet	259
Figure 6.14	Tshikondeni Mine – Coal Washing Plant	260
Figure 6.15	Arnot Colliery – Coal Processing Plant	261
Figure 6.16	Matla Colliery – Coal Processing Plant	262
Figure 6.17	Glisa Colliery – Coal Processing Plant	263
Figure 6.18	Strathrae Colliery – Coal Processing Plant	264
Figure 6.19	Hillendale Mine – PWP Flowsheet	265
Figure 6.20	Hillendale Mine – MSP and Ilmenite Circuits	266
Figure 6.21	Ticor Smelter – Flowsheet	267
Figure 6.22	Cooljarloo – Primary Concentrating Plants	268
Figure 6.23	Chandala – Mineral Separation Plant	269
Figure 6.24	Chandala – Synthetic Rutile Plant	270
Figure 6.25	Kwinana – Pigment Plant Process	271
Figure 6.26	Rosh Pinah – Schematic Flowsheet of the Metallurgical Plant	272
Figure 6.27	Chifeng Smelter – Simplified Diagram of Hongye and Lingong Roasting and Acid Making Facilities	273
Figure 6.28	Chifeng Smelter – Simplified Diagram of Hongye Hydrometallurgical Treatment Sections	274
Figure 6.29	Glen Douglas Mine – Process Flowsheet	275
Figure 6.30	Kumba FerroAlloys – Ferrosilicon Plant	276
